

Arthur Levin - bio

Betsy and I have been married since 1973. We have two children, Sarah and David, and two grandchildren, Annabelle and Lewis. I graduated from Syracuse University with a degree in Political Science and attended Bernard Baruch School of Business (CCNY). While initially preparing for Law School, I took time off from schooling and found a career in Information Technology and Business Redesign. After working for several large international manufacturing companies, I retired as the CIO of Becton Dickinson and Co.

My family is from Oregon, and I always felt a pull westward. When retirement was viable, for five years Betsy and I visited the West from Oregon, south to California, and east to New Mexico on vacations and extended week-ends. We fell in love with Red Rock country. We moved here in 2001 and joined OCCC immediately. Our first house was in Uptown. We moved to the Village in 2005. We have loved the gracious small town feel of the Village and have made wonderful friendships through OCCC.

I have always felt an obligation to serve my community. Since 2004 I have been a member of the Greens Committee, serving as chairman for the last four years. I have also been a member of the VOCA By-Law Revision, VOCA Strategic Planning, and the current Ad Hoc Golf Pro Search committees. I believe that my experience on the committees, coupled with attending most VOCA Board meetings, has prepared me for a greater role in VOCA and have applied for the open Board seat.
